

# INSTITUTE OF AERONAUTICAL ENGINEERING

(Autonomous)

DUNDIGAL – 500 043, HYDERABAD

## *Conferment of Autonomous Status*

*To Institute of Aeronautical Engineering by University Grants Commission (UGC)*

The University Grants Commission (UGC) letter sanctioning fresh autonomous status under UGC autonomous colleges scheme, to Institute of Aeronautical Engineering, Hyderabad was received on 13 October, 2015, for a period of **six years** from 2016-2017 to 2022-2023. This is indeed a dream come true for Institute of Aeronautical Engineering.

Autonomy Status enables to offer “courses different from the conventional ones which our present-day colleges usually offer” and thus “open up new paths in offering such courses”. It was also envisaged that the college will provide “all the avenues for co-curricular activities”. The conferment of autonomous status fulfills the far sighted vision of the Institute.

One day we hope it can become a “Deemed to be University”. Let us all work together to this great goal for the benefit of the nation and the society.

Date: 14 October, 2015
